DETAILED ACTION

Response to Amendment

1. In response to the Amendment received on April 6, 2007, the examiner has carefully considered the amendments. In response to the Amendment received on April 6, 2007, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claims 30-58. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Terminal Disclaimer

2. The terminal disclaimer filed on May 26, 2005 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of any patent granted on Application Number 10/733,211 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Arguments

3. Applicant's arguments, see Remarks, filed April 6, 2007, with respect claims 1-58 have been fully considered and are persuasive. The rejection of claims 30-58 under 35 USC 102(b) as being anticipated by Asawa et al (JP 54-052690) is moot since applicant has cancelled said claims; therefore, the rejection of said claims is withdrawn.

Allowable Subject Matter

4. Claims 1-10, 13-15, 18-20, 23-25, and 28-29 are allowed.

5. The following is an examiner's statement of reasons for allowance: The prior art, taken alone or in combination, does not fairly teach or render obvious the instantly claimed method of making a crosslinked polymer comprising using a fluorinated polymer having a 1st pendent group as instantly claimed and a second pendent group that includes a Br (halogen) and then exposing said fluorinated polymer to electron beam irradiation such that crosslinks result.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
